- Organisation
- Client-focused Thinking
- Technical Understanding
- Team Collaboration
- Attention to Detail

WORK EXPERIENCE & PROJECTS

FILA NI TIWA — Fashion E-commerce Website

Web Developer / Project Contributor

Developed a responsive fashion website using React and Vite based on client requirements. Worked closely with the client to understand needs, implement features, and handle revisions through delivery.

- Translated client requirements into website features and UI improvements.
- Implemented a WhatsApp-based ordering flow for customers.
- Worked on product presentation, collection structure, navigation, hero sections, and responsive layouts.
- Integrated EmailJS for website contact functionality.
- Deployed the website using Vercel and iterated based on client feedback.

Technologies: React, JavaScript, HTML, CSS, Vite, EmailJS, React Icons, Vercel

The Priest — Personal Portfolio Website

Web Developer / Designer

Designed and developed a responsive portfolio website to showcase web-development work and services.

- Used Figma to plan layouts and visual structure with a focus on clear navigation and user experience.
- Deployed the completed website using Vercel.

RELEVANT PROJECT COORDINATION EXPERIENCE

- Worked with project requirements and translated ideas into practical website features.
- Managed website revisions and adjusted implementations based on feedback.
- Identified and resolved website issues during development.
- Communicated technical requirements in practical, understandable terms.
- Familiar with the workflow from design and development through testing and deployment.
- Comfortable tracking pending changes and ensuring requested features are completed.

CAREER INTEREST

Interested in website project coordination, client servicing, web development, and working at the intersection of clients, designers, and development teams.
